Video: Swivel shackle with impressive lifting power

4 MAY 2016

COMMENT [f](#) [t](#) [in](#) [RSS](#)

The new Swivel Shackle Giga DSS from [Codipro](#) incorporates a [Superbolt tensioner](#) and can handle up to as much as 125 ton. It is the most efficient lifting ring ever made and can handle turning loads. The design has been optimized for easy tooling access to tighten the Superbolt nut, whilst still ensuring a sealed design when in operation. The swivel shackle can be used directly with the hook of the traveling crane, see the video below to learn more:

CODIPRO launches the most efficient swivel lifting ring ever ... [▶](#)
